Martin TANG

Chairman
of **Global Cybersecurity Association**

Principal, MT Associates

Martin leads GCA's Symposium, he organises and moderates GCA's conferences and is responsible for sponsor relationships.

Martin Tang is Chairman of **Global Cybersecurity Association (GCA)** and Principal of MT Associates, a risk management and insurance consultancy for large corporates.

A law graduate of University College, London and UK-qualified Barrister, Martin worked for over 15 years in the US insurance market with Fortune 1000 companies. After 6 years with Swiss Re as US liability insurance underwriter, Martin joined AXA XL, Bermuda, in its start-up phase, as VP of liability insurance and head of risk management and underwriting R & D. He was Vice Chairman of the XL Broker Policy Review Committee and had primary responsibility for the Bermuda Form, the gold standard liability insurance policy for the Fortune 500.

After XL, Martin consulted for AstraZeneca and GlaxoSmithKline on the feasibility of a Bermuda Association Captive insurer. He was then retained by long-term customer Bechtel, San Francisco, as risk management and insurance adviser.

Martin joined Aon Risk Solutions and set-up a high-growth risk management and insurance consultancy for large corporates, expanding customer choice by introducing Bermuda markets into Switzerland and serving as SAM, Broking Director & Group Manager.

Thereafter, he joined Jardine Lloyd Thompson, a London broker and developed Swiss LSC and Comtech business. Martin joined the Institute of Risk Management, Switzerland, serving for 4 years as Chairman. Under Martin's leadership and thanks to his sponsors, Swiss IRM membership doubled within 2 years, as informal gatherings were succeeded by professionally organized events, with local and global thought leader keynotes and high senior management participation.
