Christian ULMER

Global CISO
of Avaloq

SYNOPSIS

“Increase the Cyber Resilience of your first line of defense. A glimpse into new approaches to Security Awareness.”

Learn why tick-box trainings are no longer sufficient to equip your staff to detect and respond to phishing emails or malware attempts. Learn how Avaloq increased the resilience of its first line of defense by rolling out user-centric, high-quality trainings and awareness content in an edutainment approach. Gain insights on how awareness can be measured and improved.

Christian Ulmer is Global CISO of Avaloq, a leader in core banking software, digital banking and wealth management and the world's leading provider of core banking SaaS and BPaaS outsourcing, with over 150 banks and USD 4 trillion managed with Avaloq software.

Prior to Avaloq, Christian was Head of IT Infrastructure, Platform, Services, IT Risk and IT Portfolio Management and Planning, at UBS Card Center, with over 2 m clients. Before this, Christian was a Director of IT Security and Risk Management at UBS, supporting a cross divisional key remediation program to mitigate threats from cybersecurity and data protection, including control architect activities for access controls and security monitoring.

Christian also occupied various IT Roles at KPMG, where he was National IT Security Officer and at Credit Suisse, where he was Senior Network Security Engineer. Christian is CISSP certified and holds a Master's degree in Commercial Information Technologies from the Berufsakademie Stuttgart.
