Don FREESE

CISO
of **Interxion**, a Digital Realty Company

Don reports to Executive Vice President, Operations Erich Sanchack and is responsible for overseeing Digital Realty's company-wide information security technology and programs and managing risks related to confidentiality, integrity and availability of systems and data.

Don is a cybersecurity leader, bringing more than 30 years of leadership experience advising large corporations and the highest ranks of the U.S. government on cybersecurity, cyber operations and IT risk management.

Prior to Digital Realty, Don worked for PwC, where he worked as Principal - Advisory Cybersecurity, Implementation & Operations and led PwC's North America Practice for network security services.

Prior to this, Don served as Deputy Assistant Director to the FBI, advising the US Government's highest officials, including the White House National Security Council on Cybersecurity.

Don has a Master of Science in Business Continuity, Security and Risk Management from Boston University.
